

Zoo

profim

“The goal was to design a broad range of visitor chairs in which all configurations can work equally successfully as stand-alone pieces. At the concept stage, we tried to find a structural approach that would enable achieving that task – the non arm, arm, cantilever and four leg versions all had equal priority. The result is a genuinely versatile chair range featured by discreet elegance.”

**Paul Brooks**  
Product Designer

**reddot** design award  
honourable mention 2015

Multifunctional. Multicolour.

# Perfect form, multiplied.

A truly multi-functional chair. Zoo is suitable for a variety of uses throughout the corporate environment including conference, meeting, training, retail and leisure areas. Zoo is available in a broad range of versions, finish options and colours, making it a versatile and adaptable choice for any space.

# Little details appreciated by big audiences.

Zoo stands out against other products in its class. The difference is in the attention to detail. With its beautifully integrated design and form Zoo doesn't feature any visible nuts, bolts or any other "connecting" elements, creating a seamless aesthetic within each individual chair throughout the range.

## Bold Monochrome.

Six component colours can be mixed and matched in a variety of ways. Or keep it simple with a single colour of plastic and metal elements throughout the chair to create a seamless monochrome experience.

# Professional or personal? Both, actually.

For a conference.

Example of a formal set-up – meeting room, auditorium, lecture room.

For a creative brainstorming session.

Example of an informal set-up – meeting room, cafeteria, discussion/focus groups.

# Have fun creating your own.

Zoo allows for multiple configurations both functionally and colour-wise. As a result, there is a number of Zoo options that will perfectly complement any interior you need to accommodate.

- 1 bench table top
- 2 distance keeping elements for benches
- 3 plastic backrest
- 4 mesh backrest
- 5 upholstered backrest
- 6 plastic seat
- 7 upholstered seat
- 8 seat cover
- 9 armrest
- 10 cantilever without stacking option
- 11 cantilever with stacking option
- 12 4-legged frame
- 13 table top
- 14 bench glides
- 15 bench frame
- 16 numbering
- 17 "anti-panic" connector for rows
- 18 "anti-panic" connector for chairs
- 19 castors / glides
- 20 elements connecting frame with backrest
- 21 linking part (cantilever version)
- 22 linking part (4-legged version)

# Truly multifunctional.

## Easy stacking and transport

The stackable version allows for economic storage when not in use, and a dedicated trolley makes transport much easier and faster.

## Folded table top

The optional table top makes Zoo a perfect choice for large seminar and lecture rooms.

## Combining in rows

A purposely designed row linking system means the chairs will remain in place even during long events.

## Chair & row numbering

Especially useful in case of big audience, the row and seat numbering option makes logistics of large events much easier.

## "Anti-panic" system

Guarantees safety of all users even in emergency situations.

## Numbering

Chair numbering Type A

**ZA 1-10** Numbers 1-10 (a set)

**ZA 11-20** Numbers 11-20 (a set)

**ZA 21-30** Numbers 21-30 (a set)

Chair numbering Type B

**ZB 1-10** Numbers 1-10 (a set)

**ZB 11-20** Numbers 11-20 (a set)

**ZB 21-30** Numbers 21-30 (a set)

Rows numbering

**ZC 1-10** Numbers 1-10 (a set)

**ZC 11-20** Numbers 11-20 (a set)

## Magnetic handle

Magnetic handle for disassembly of the numbering

**MH**

## Joining in rows

Linking part (4-legged version)<sup>1</sup>

Linking part (cantilever version)

<sup>1</sup> The linking part is suitable for 4-legged versions (H/H 2P/H 2PB). The linking part is an integral part of the chair, therefore it cannot be purchased and assembled at a later stage.

## "Anti-panic" system<sup>2,3</sup>

### "Anti-panic" connectors

- APA** for chairs without armrests
- APB** for chairs with armrests
- APC** for chairs with armrests and a table top

### "Anti-panic" system for connecting rows

**APD**

<sup>2</sup> Available colours: black, metallic.

<sup>3</sup> "Anti-panic" system is available for 4-legged versions only (H/H 2P/H 2PB).

## Trolley for transportation<sup>4</sup>

### Trolley without a handle

**CT**

### Trolley with a handle

**CTH**

<sup>4</sup> Available colours: black, metallic. Always with soft castors.

## Distance keeping elements<sup>5</sup>

### Distance keeping element preventing touching the wall by the backrests of benches

**D1**

### Distance keeping elements preventing touching of backrests of adjacent benches

**D2**

<sup>5</sup> Available colours: black, metallic.

# Profim and the Environment

In our operation we follow the sustainability principle. We operate in a responsible manner for the benefit of our customers, employees, suppliers, and the local community, but we always respect the environment.

In order to achieve our goals, we have implemented Environmental Management System based on the ISO 14001 standard, which allows for a comprehensive approach to ecology. We take into consideration and evaluate the way Zoo products affect the environment during their entire life cycle.

For more information about the product please scan the QR code.
